FROM: Chief, I/PE, ORR

SUBJECT: Request for Permission to Use Information from a Sensitive Report [REDACTED]

25X1A2g

1. The subject CS report establishes that a [REDACTED] firm delivered a high performance centrifuge for physiological research for space medicine purposes to the USSR in 1960. In support of the U.S. representative to Cocom, we are currently engaged in preparing a statement of the Soviet Bloc position with respect to capability to produce such equipment. It would be useful to our statement of the Soviet Bloc position if we could refer to the [REDACTED] delivery with or without identifying the country precisely. However, it would be necessary, in order to use the information, to reduce the classification of the fragment to Secret, dropping the NoFORN, Limited, Background Use Only.
